

# Edmonston Drive Nighttime Paving

**Project Description:** City contractor M.T. Laney Company, Inc. will be repaving the sections of road on either side of the bridge spanning the CSX and Metro railroad tracks. Due to high volumes of traffic, the work will be completed at night between 10 p.m. and 5 a.m.

Construction is scheduled to begin the evening of May 9 and will conclude the morning of May 11, weather permitting. The work will involve removing 3-inches of existing pavement the first night and then replacing it on the second night. During the day the work area will be made available for normal use. At night, the road will be closed and traffic will be required to detour around the area. During the construction process there will be normal construction machinery noise. We apologize for any inconvenience this may cause.

**Purpose:** To remove, and replace, 3-inches of existing pavement.

**Location:** Rockville Pike to Lewis Avenue.

**Timeline:** Work is scheduled to begin the evening of May 9 and will conclude the morning of May 11, weather permitting.

**Contact:** **Dan Stevens**, City of Rockville Construction Inspector, 240-314-8552 or [dstevens@rockvillemd.gov](mailto:dstevens@rockvillemd.gov)
